

Ujjawal Bhardwaj

+91 8218301131 — ujjwalsharma1910@gmail.com — LinkedIn — GitHub — LeetCode — Portfolio

Professional Summary

Full Stack Developer with hands-on experience in **React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and PostgreSQL**. Experienced in engineering **REST APIs, authentication workflows, responsive interfaces, and end-to-end web applications**. Applied **Data Structures & Algorithms, Object-Oriented Programming, and database design** across full-stack projects and production deployments.

Education

Arya College of Engineering & IT , Jaipur, Rajasthan	Expected 2027
Bachelor of Technology in Computer Science	GPA: 8.4/10.0
The Doon Valley Public School , Saharanpur, Uttarpradesh	2023
Senior Secondary (Class 12th)	84%
The Doon Valley Public School , Saharanpur, Uttarpradesh	2021
Secondary (Class 10th)	83.6%

Internships

Full Stack Web Developer Intern, Energetic IT Solutions	Apr 2026 – Jun 2026
- Engineered responsive full-stack web applications across a 3-month internship using modern frontend and backend technologies. - Designed RESTful APIs and integrated database operations for structured data storage and retrieval. - Implemented secure authentication workflows and CRUD functionality across application modules. - Delivered assigned development milestones through iterative implementation, testing, and debugging.	

Projects

DevOS – Developer Productivity Platform	Live — Jul 2026
- Architected a full-stack productivity platform integrating project management, Kanban boards, task tracking, and workflow automation. - Implemented 2 authentication mechanisms using JWT-based authentication and Google OAuth. - Integrated GitHub and LeetCode APIs to surface developer activity, coding statistics, and productivity insights. - Engineered a visual workflow system enabling users to create and manage connected workflow nodes for structured process automation. - Deployed a 2-service architecture using Vercel for the frontend and Render for the Node.js/Express.js backend.	
Zoom Clone — Real-Time Video Conferencing App	2026
- Engineered peer-to-peer audio and video communication using WebRTC for real-time conferencing. - Integrated Socket.io to enable instant in-meeting messaging and bidirectional real-time communication. - Designed meeting-room workflows with unique room IDs to support participant joining and session isolation. - Connected a React frontend with a Node.js and Express.js backend for signaling and real-time event handling.	

Technical Skills

Programming Languages: Java, SQL

Web & Frameworks: React.js, Next.js, Node.js, JavaScript, TypeScript, Express.js, Tailwind CSS

Databases & ORM: PostgreSQL, MongoDB, Prisma ORM

Developer Tools: Git, GitHub, Postman, Turborepo, Linux

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming

Certifications

- Game Programming with Unity Internship — TechForce Academy (Jun 2025 – Aug 2025)
- Red Hat Certified System Administrator — RHCSA
- Problem Solving Through Programming in C — NPTEL
- Java Programming Masterclass — Udemy
- Google UX Design — Google
- Mastering React and Node.js Firebase Authentication - Udemy
