Education

Arya College Of Engineering and IT

Bachelor of Technology (Btech) (CGPA: 8.1/10.0)

Aug 2027 – Present

Dehradun, Uttarakhand

The Doon Valley Public School

Intermediate (CBSE) - 84%

2023

Uttar Pradesh

The Doon Valley Public School

Matriculation (CBSE) - 84%

2021

Uttar Pradesh

Internships

Fullstack Web Developer Intern, Energetic IT Solutions

Apr 2026 – Jun 2026

- Developed responsive full-stack web applications using modern frontend and backend technologies.
- Built REST APIs and integrated databases to support scalable web applications.
- Implemented authentication, CRUD operations, and optimized user experience across projects.
- Maintained communication, met milestones, followed program guidelines, and demonstrated progress in Fullstack skills.

Agentic AI Intern, Grras Solutions

Jun 2026 – Aug 2026

- Building AI-powered agents using Python, LLMs, and LangChain to automate multi-step tasks and workflows.
- Integrating external APIs, tools, and memory systems to develop context-aware intelligent applications
- Working on AI automation, multi-agent systems, and real-world projects including research, task automation, and data analysis agents.

Projects

ALLC – Book Appointments. Pay Securely. Get Care Faster

Jan 2025

- Smart Doctor Appointment Booking with Integrated Secure Payments.
- Built and deployed a full-stack web application using React, Node.js, Firebase and modern deployment pipelines.
- Implemented dynamic data handling and responsive UI for improved user experience.
- Designed modular architecture for scalability and maintainability.
- Integrated backend services and optimized API communication.

Venmo-like Digital Payments Platform — Full-Stack FinTech System (Ongoing)

Jul 2026

- Developed a scalable full-stack application using Next.js, Express, PostgreSQL, and Prisma ORM within a Turborepo-based monorepo architecture.
- Implemented peer-to-peer money transfers using phone number/username with real-time balance updates.
- Implemented authentication system (email/phone + Google login) with secure session handling.
- Designed automated payout system to transfer merchant balances to bank accounts at scheduled intervals.
- Developed responsive UI using Tailwind CSS, ensuring smooth user experience across devices.

Zoom Clone — Real-Time Video Conferencing App

May 2026

- Built a real-time video calling system inspired by Zoom using WebRTC for peer-to-peer audio and video communication.
- Implemented instant messaging during calls using Socket.io for real-time chat functionality.
- Designed and managed meeting rooms with unique IDs for seamless user joining and interaction.
- Developed a responsive frontend with React and backend using Node.js and Express for handling signaling and real-time events.

Technical Skills

- **Languages:** Java, Python, SQL, Linux, Javascript
- **Frameworks/Libraries:** React, Tailwind CSS, Node.js, Express.js, Socket.IO, JWT, Typescript
- **Databases:** PostgreSQL, MongoDB, Prisma
- **Tools:** Git, VS Code, IntelliJ IDEA, Postman, MongoDB Compass

Certifications

- Red Hat Certified System Administrator – RHCSA
- Problem Solving Through Programming in C — NPTEL.
- Java Programming Masterclass— Udemy
- Google UX Design — Google
- Mastering React and Node.js Firebase Authentication - Udemy
